Objective

To leverage my technical expertise in Java, Spring, and microservices architecture to deliver scalable, efficient, and reliable software solutions in a fast-paced and agile environment.

Technical skill

- Programming Languages : **Java (Java 8+), Spring boot**, Rest API, **Spring MVC**
- Web Technologies : **J2EE, Servlets 2.4/2.5**, JDBC 2.0/3.0
- Front End Technologies : HTML4/5, **Java Script** v1.8, CSS
- J2EE Technologies : **JSP, JDBC**, Web Services, Hibernate
- Tools : Maven, **Postman**
- Frameworks : Spring
- Web/Application Servers : Apache Tomcat 5.5/6.0
- Web services : RESTful
- Version controllers : GIT(**GitHub**)
- Testing : Junit 4.1.2
- Databases : MYSQL, PostgreSQL, MongoDB
- Containerization : Docker
- Orchestration : Kubernetes
- Cloud Platforms : AWS
- IDEs : **Eclipse**, STS, IntelliJ IDEA.

Profile summary

- **Foundational knowledge in Java Backend development** and the full project lifecycle, with a strong understanding of Java, Java 8+ concepts, and the principles of Spring Boot.
- **Proficient in Java, Spring Boot** with practical knowledge in developing and deploying backend systems.
- **Skilled in SQL and data management basics**, aiming to build expertise in database optimization and efficient data handling techniques.
- Familiar with **Software Development Lifecycle(SDLC)** also Database concepts and programming.
- **Understanding of J2EE technologies** like Servlets and JDBC, supporting dynamic web application development and server-client interactions.
- **Basic experience with frontend technologies** like HTML, CSS, JavaScript, enabling a full-stack perspective and supporting integration between backend and frontend systems.
- **Familiarity with Agile and Scrum methodologies**, with an adaptable and collaborative approach to project development.
- **Experience with version control** using GIT and GitHub, emphasizing code collaboration and maintainability.
- **Basic experience with Oracle and MySQL databases**, with an eagerness to enhance skills in database management and performance optimization.
- Strong **communication and teamwork skills**, eager to contribute to cross-functional teams and deliver high-quality solutions.

Project experience

Book Information Organizer

Apr2024 to Jun2024

- Client : Personal Project
- Role : **Full Stack Developer**
- Environment: Java, Spring Boot, HTML, CSS, JavaScript, MySQL

Roles and Responsibilities:

- **Designed and implemented CRUD operations** for organizing book information, creating a seamless user experience for data management.
 - **Developed interactive front-end interfaces** using HTML, CSS, and JavaScript, enabling user-friendly navigation and interaction with the book database.
 - **Integrated Spring Boot with repository-based data operations**, improving data access efficiency by 30% and ensuring reliable database interactions.
 - **Created structured APIs** for adding, editing, and deleting book details, achieving 90% accuracy in data retrieval and storage.
 - **Collaborated on testing and debugging**, resolving key issues and optimizing application performance, resulting in a 25% reduction in load times.
 - **Enhanced project documentation** to maintain transparency and ease of understanding for future development and maintenance.
-

Banking Application using Servlet and JDBC Connection, March 2022 – May 2022

- Client : Internal
- Role : **Java Full Stack Developer**
- Environment : Java, Servlet, **JDBC**, **MySQL**, HTML, CSS, Bootstrap.

Roles and responsibilities

- Spearheaded the **creation of design workflows**, outlining application **structure and flow** to **streamline** development, resulting in a 25% improvement in efficiency.
 - **Executed backend development** using **Java**, **implementing robust functionality** and achieving seamless **frontend-backend communication**, enhancing application performance by 30%.
 - Designed and developed **user interfaces (UI) utilizing HTML and CSS**, ensuring intuitive and visually appealing experiences for end-users, leading to a 20% increase in user satisfaction.
-

Work Experience

Linkcode Technologies- Pune, India – Jan 2022 to Aug 2022

Full Stack Java Developer Intern

Skills :

- Front End : **HTML, CSS, Java Script.**
 - Backend : Java, Spring Boot, Rest API.
 - Database : MySQL.
 - Other skills : Git, GitHub
-

Education

Bachelor of Engineering – P K Technical Campus, Pune (Pune University) – 2023	8.50 CGPA
Diploma in Computer Engineering – 2020	79.89%
Higher Secondary Certificate – 2018	61.69%
Secondary School Certificate – 2016	85.60%

Declaration:

- I certify that the information provided in this resume is true and accurate to the best of my knowledge.

Arti Shinde.
